pplication of steam-power to the purposes of navigation, by a newly invented water-wheel. We find in the Times a noice of some experiments recently made in the presence of everal scientific gentlemen, to ascertain the resistance of the water upon the wheel when wholly immersed, and also the less of power by the sliding in and out of the paddles. The wheel without the paddles is simply a hollow, tight cylinder of iron, buoyant in water: it was found to revolve thirty times minute when immersed, with the same power which would rive it but twenty-six out of the water, from the fact that its buoyancy lightens and eases it on its bearings. Thus was it proved that the immersion of the cylinder would not be atended with a loss of power. A second experiment was nade with one of these wheels and one of the common padile wheels-equal in weight and diameter, and with paddles of the same number and size. The result was that it took ess than three-fourths of the power required by the old wheel thus showing that the loss by friction of the new wheel is the dip and back-water, in the old ones. PHALON'S

CELEBRATED ANTI-DANDRIFF.

NO ONE should be without a bottle of Phalon's Anti-Dandriff—it is without exception the best remedy ever yet employed for utterly eradicating with one wash, the dandriff completely from the head. The proprietor of this celebrated Wash, unlike some individuals, will not guarantee that it will turn gray hair black or make bald heads hairly, but he will give \$100 to that person who will say that it is not the article he recommends it to be, viz. a through cleaner of the surface and HAIR of the head. Its qualities are peculiar. It not only cleaness and purifies the Hair, but leaves a glossy and silky appearance unlike all other remedies of the sort ever yet offered to the Public. It leaves, after its application, the most exhiberating and cooling sensation, and its effect for LADIES and CHILDREN'S heads is unrivalled. Gentlemen will find this compound a great preventive to Baldness, for by keeping the roots of the Hair and pores of the head perfectly free from daadriff, it promotes and strengthens the growth of the Hair. All persons travelling South, or living in a warm climate, should never be without it as its qualities for a Southern climate are altogether unequalted. Those who may be sceptical as to the qualities of my invaluable Wash I here invite to purchase one bottle, and if not found to be exactly as I warrat t it to be, I will return them the cash if used secording to direction.

Price 50 and 75 cents per bottle, or gentlemen can have it applied for 25 cents, and to be purchased of any barber in New-York. Observe, note is geauine unless signed by me in ink.

SUMMER DRINK—We would remind our readers of the
Disatthy and delightful summer beverage prepared by Messre.
Sands, No. 79 and 100 Fulton-st. It is by far superior to all other
drinks, possessing, as it does, valuable medicinal properties, in addition to those which inake it so agreeable. It is a perfect substitute
for stimulating drinks, and the friends of temperance will find it just
the thing for renovating the rhysical frame, and infusing renewed
health and viror.

From the New-York Planet, June 30.

TEMPERANCE DRINK—The most delectable and healthy summer drink that can be obtained is Sand's Aersaparila Mead, which
every one can prepare for themselves from the Syrup in a glass of
cold or need water. Its flavor is delightful. Sold by druggists and
grocers generally.
